

# Monthly Cost of Gas Report

Report Creation: 11/12/2014 8:33:09 AM

The following report is a summary of current Natural Gas prices for various utilities that may be providing natural gas service to your properties and/or facilities. The report provides a recap of reported tariff rates as they have been reported to the various public utility commissions. The report is intended solely as a "heads up" barometer of gas prices and trends. NOTE; the report only reflects the commodity and transportation components of your gas bill. It DOES NOT include taxes, surcharges, excess usage charges, or commodity rates if you procure gas from a provider other than the serving utility.
